

Key benefits of integral blinds

Integral blinds offer a great solution to control heat and light whilst enhancing or maintaining the great looks of windows and doors. With many style and colour options, your customers can design blinds to fit in perfectly with their decor and tastes.

- **Easy to use:** No unsafe & unsightly cords , no fiddly knobs. Two discrete magnets to raise and lower the blinds. Enhanced accessibility options and systems available for users with reduced or below average motor skills.
- **Low maintenance:** No servicing or maintenance required
- **Long lasting:** Fully counterweighted internal mechanism for long lasting durability
- **No obstruction to views:** Ultra low profile design for minimal obstruction to view through slats when lowered and in opened position
- **Competitively priced:** Costs are comparative to alternative solutions
- **Easy to Install:** Manufactured within a sealed unit , simple installation.
- **Quick delivery;** Delivered with 28 days of orders, Fast Tracking Service Available for + 50%
- **Co-ordinate:** Available in 12 colours and controls can be Colour Matched*
- **Additional benefits:** New SwiftGlide MAGSTOPS (Optional) can be added
- **Blinds that last:** A Full 10 year guarantee
